9. By the 1st December preceding the date fixed for the examination the Accountant-General should forward to the Principal of the Bengal Engineering College, Sibpur, for registration a statement showing in respect of accepted candidates only, their names, dates of birth, addresses and the centres where they are to be examined. 16. It must be distinctly understood that the passing of this examination does not give any claim to appointment as a Divisional Accountant, and that applications for appointment should not be addressed to the Principal. The passing of this examination is a necessary qualification, but the establishment of Divisional Accountants is mainly recruited by selection from amongst qualified clerks actually employed on accounts duties in the divisional and subdivisional offices of the Public Works Department or in Civil Audit offices. A small number of graduates of Indian Universities and other persons of superior and special qualifications who may have passed this public examination, may, however, be appointed direct by the Accountant-General, *vide* paragraph 4 of Appendix 2 to the Public Works Account Code issued by the Auditor-General in India.

17. These rules may at any time be amended or revised by the Auditor-General, who reserves to himself the power to grant exemptions from this public examination in very special cases. No. 614.—The following resolution of the Government of India is republished :—

HOME DEPARTMENT

Simla, the 7th June 1930.

No. F. 45/7/30-Public.—The last decennial census was taken in 1921, and it has already been made public that arrangements have been taken in hand for the carrying out of the next census in 1931. Dr. J. H. Hutton, D.Sc., C.I.E., I.C.S., has been appointed Census Commissioner for India and took over his duties in October 1929. As on previous occasions a special Act has been passed by the legislature to provide for certain matters in the taking of the census, and received the assent of the Governor-General on October 1st, 1929.

2. The night of the 28th February 1931 has been fixed for the census of India generally. This date on the whole fulfils the necessary conditions with regard to the phase of the moon, important festivals and agricultural operations required to secure the enumeration, in the most convenient circumstances, of the normal population, and has been practically unanimously accepted by local Governments and Indian States. It has been found necessary, however, to fix the night of 24th February as the date of the Census in Burma, owing to adverse local conditions on the date chosen for India.

3. A copy of the census enumeration book in the form in which it will be issued to enumerators is appended to this resolution. The schedule varies slightly in form from that used on the last occasion.

4. The growth of industry and the development of machinery have made the census of industry as taken on previous occasions inadequate for its purpose. A complete and efficient census of industrial concerns, including their machinery, is now, however, too onerous an undertaking to be conveniently combined with the population census in this country and will therefore not be undertaken. A column for industry has, however, been added to the General Schedule, and this will, to a certain extent, compensate for the loss of information involved in the abandonment of the census of industry.

INSTRUCTIONS TO ENUMERATORS.

I.—RULES FOR FILLING UP THE SCHEDULE.

You must use black ink only and write very clearly.

Column 1 (House Number).—Enter the number of the house. If it is empty, write "empty" after the number, and leave one line blank. If you find a house without a number you will report to the supervisor for orders.

Column 2 (Serial Number).—This column is not to be filled up until after the final enumeration. You will then enter a serial number for all persons enumerated.

Column 3 (Name).—Enter first the chief resident member of the family, whether male or female, then the other members of the family and their resident servants, if any. The name of the head of the family is essential, for others the relationship will do, e.g., "wife of so and so", guest of "so and so", "son of so and so".

Column 4 (Religion).—Enter here the religion which each person returns, as Hindu, Muslim, Sikh, Jain, Christian, Parsi and the sect where necessary. In the case of aboriginal tribes who are not Hindu, Buddhist, Christian, etc., the name of the tribe should be entered in this column. Sect is in all cases required for Christians.

Column 5 (Male or female).—Enter whether male (M) or female (F), even though you have written the word "female" in column 3 already.

Column 6 (Married, etc.).—Enter each person, whether infant, child, or grown up, as either married, unmarried, or widowed. Divorced persons, who have not remarried, should be entered as widowed.

Column 7 (Age).—Enter the number of years to nearest birth day or the nearest age (in years) known. For infants less than six months old, enter 0 and for infants over six months enter 1.

Column 8 (Caste).—For Indians enter caste as ordinarily understood but for wide castes enter sub-caste also. The class titles—Brahman, Kshatriya, Vaishya and Sudra are usually insufficient by themselves. For other subjects of the Empire and for foreigners enter race, as "Anglo-Indian", "Canadian", "Goanese", "Turkish". For Indians such as some Christians who have neither caste nor tribe, enter "Indian".

Column 9 (Worker or Dependent).—Enter 'earner' or 'dependent'. A woman who does house work is a dependent, so is a son who works in the fields but does not earn separate wages. A cultivator cultivating as a principal occupation is an earner.

Column 10 (Principal occupation of actual workers).—Enter the principal means of livelihood of all persons who actually do work or carry on business, whether personally or by means of servants, or who live on house-rent, pension, etc. Enter the exact occupation and avoid vague terms such as 'service' or 'writing' or 'labour'. Replies such as are given to a Magistrate in court are not enough. For example, in the case of labour, say whether in the fields, or in a coal mine, or jute factory, or cotton mill or lac factory, or earthwork, etc. In the case of agriculture distinguish between persons who do not cultivate personally, who cultivate their own land, who cultivate rented land and who are hired labourers. If a person makes the articles he sells he should be entered as 'maker and seller' of them. Women and children who work at any occupation which helps to augment the family income must be entered in column 9, and in column 11. For dependents make a X only in column 10.

Column 11 (Subsidiary occupation of actual workers).—Enter here any occupation which actual workers pursue at any time of the year in addition to their principal occupation. Thus if a person lives principally by his earnings as a boatman, but partly also by fishing, the word 'boatman' will be entered in column 10 and 'fisherman' in column 11. If an actual worker has no additional occupation a cross (×) will be put. Dependents who help to support the family by subsidiary work, e.g., a woman who helps in the fields as well as doing house work will be shown in this column.

Column 12 (Industry in which employed).—For managers, clerks, operatives or workmen employed in a factory or by any person employing industry fill up the name of the industry, i.e., biscuit making, coal mining. For individual workers not employed by others put a X.

Column 13 (Birth district).—Enter the district or State in which each person was born; and if the person was not born in your province, add the name of the province to the district of birth. If the person was born out of India, enter the country, as *Nepal, Afghanistan, Ceylon*. The names of villages, tahsils, etc., are not to be given.

Column 14 (Language).—Enter each person's mother tongue. In the case of infants and deaf-mutes the language of the mother should be entered.

Column 15 (Subsidiary language).—Enter the language or languages habitually spoken by each person in addition to his mother tongue in daily or domestic life.

Column 16 (Literate or illiterate).—If literate in Hindi write Hindi; if literate in Urdu write Urdu. Otherwise, enter against all persons, who can both read and write a letter, in any language, the word 'Literate.' If not make a X.

Column 17 (English).—Enter the word 'yes' against all persons shown as literate who can both read and write English. Otherwise put a X.

Column 18 (Infirmities).—If any person be blind of both eyes, or insane, or suffering from corrosive leprosy, or deaf and dumb, enter the name of the infirmity in this column.

Do not enter those who are blind of one eye only, or who are suffering from white leprosy only.

II.—Procedure.

A.—The first round—(Preliminary Enumeration).

1. Beginning from the * of * 1931, you will visit every house in your block to which a separate number has been affixed, in the order in which the houses are entered in your block list, and fill up the columns in the schedule for all persons who ordinarily live in or take their meals from the house. Even if they are temporarily absent such persons should be entered if they will be back by the 28th February. Visitors should not be entered if they will have left before that date.

2. You must carefully study the instructions given above for filling in the columns of the schedule and also the specimen schedule on the cover of this book which contains a number of entries illustrating the rules. You should consult your supervisor whenever you are in doubt as to the proper entry.

3. If directed to do so by your supervisor, you will make a rough draft on plain paper, one you will not copy it in your book until it has been passed by him.

4. If the entry for any person in any of the columns of the schedule be the same as that for the person entered on the line above, you must repeat the entry. You must not write the word 'ditto' or make dots.

5. You must have completed all the entries in your block by the * * of * 1931.

B.—The second round—(Final Enumeration).

6. On the evening of the 28th February at the time of lighting lamps, you will take this book as already filled in and again visit every house in your block in order. You must see that you are yourself enumerated in the house where you are stopping.

7. You must summon the chief member of each family and read over to him one by one the names of the members of his household entered in the schedule, asking him, as you read each name, whether the person is present in the house or not. You must also ask him particularly whether any fresh persons have come or any child has been born. You must strike out the entries for persons who are not present, and fill up the form for any person new in the house who was not there when the first visit was made such as guests, infants, newly born and others. You are to consider as present all persons living in or taking their meals from the house, even though any of them may be out fishing or watching in the fields or the like.

8. The fresh entries mentioned in the last rule must be made on the blank pages at the end of your book. In each case you will enter the number of the house to which the fresh entries relate, writing under it the word 'continued'.

9. You must make no alteration whatever in any entry against the name of any person unless you have to strike out the entries altogether, because he or she is no longer present. When you strike out a person, you must draw a line completely through all the entries following that person's name, and not merely through column 3.

10. Whilst going on the second round you must visit every house marked 'empty' in your book, to see whether any person is then living there.

11. You must also go to the dharmsalas, serais, encampments and landing places where travellers rest for the night, and enter all particulars in the schedules for the way-farers, boatmen, pilgrims and others you may find there, and strike out the entries already made against persons who are not then present. You should ascertain from the village watchmen whether any members of a wandering tribe have come to your block. If so, you must go and enumerate them in the manner prescribed above.

12. If any householder in your block has been given a separate schedule, you must collect it on the morning of the 27th February and, after seeing that columns have been duly filled in according to the rules, you must stitch it into your book, next to the last schedule filled up by you.

13. You will then (on the morning of the 27th February) go without any delay to the place appointed by your supervisor and after your book has been inspected by him, you will enter in the abstract, printed on the inside of the cover, the number of occupied houses and persons, male and female, in your block.

14. According to the Census Act, every person is legally bound to furnish you with such information as is necessary for filling up the schedule, but you are forbidden to ask for an information not required for the purposes of the census, *as for instance, the amount of any person's income* or to disclose to any unauthorized person any information given. Any enumerator extorting money on any pretext connected with the census renders himself liable to punishment under the Census Act or the Penal Code. Entries in this schedule are confidential and cannot be used hereafter in any legal proceedings in the Civil Courts.

SCHEDULE C.

[Specification of the railway track for light metre gauge rolling stock.]

1 *The road*.—This will consist of an upper renewable wearing bar, and a lower permanent bearing bar. These bars will be flanged or angle bars, nesting closely into each other. Initially they will be made of hardwoods for a maximum axle load of 5 tons. Later on, as the wood wears out, they will be progressively replaced by concrete angle bars for a maximum axle load of 6 tons. The tread of the wooden wearing bar will be 4" wide, and its flange 2" high, and the tread of the concrete wearing bar will be 4½" wide, and its flange the same 2" high. In the wooden rail, both the upper and the lower bars will be 2" thick in the treads, and 1" wide in the flanges. In the concrete rail, the upper bar will be 2½" thick in the tread, and the lower bar will be 3½" thick in its tread, and both bars will be 1½" wide in their flanges.

2. *The chip plates*.—These will consist of steel bars, 4" × ½" for wood, and 4" × ¼" for concrete, best tongued, and slotted to pattern to form a top chip and a bottom chip, and used to sets at every bar joint, to fit closely round the backs on the rail angle bars, and to key tightly together by means of steel cotters, driven into the slots in the tongues of the bottom chip.

3 *The strut bars*.—These will consist of wood or concrete bars, 2½" × 3" section, grooved vertically 2" deep and ½" wide at each end to fit over the cotters at each rail joint, and thus preserve the gauge width.

4. *The track* will be laid on a foundation of rolled or rammed ballast laid in a trench 1' wide under each rail, and to depth depending on the nature of the ground, with a minimum of 1' in earth. The space between the two rails will be filled up with mud and stone to the top of the rail flanges; and the space outside of and adjoining each rail will be filled up to tread level with a slight outward slope for drainage.

5. As the wheels are flangeless, and the rail-motor locomotives will have road-steering powers, no points and crossings are required. At all turn-outs, and also at all road level-crossings, the railway track will be replaced by a short length of ordinary hard metalled road pavement, about 6' wide at each track end; and to ensure engaging the right rack, the angle bar rails of the track will be converged together to form a point or 'nose'.

6. As the paved gaps, at turn-outs and level-crossings will not exceed half a train length, at least half the train will always be on the regular track.

7. The width of formation in embankment should not be less than 12 feet, i.e., 6 feet on either side of centre line, and for cuttings the minimum width, exclusive of side drains, should not be less than 12 feet.

8. Bridges will be built to designs previously approved by Government. Girder bridges are to have substantial decking for a width of 4 feet at rail level on each side, measured from the centre of track, and guard rails or angle bars.

The scholarships are of the value of £300 a year tenable for a period of three or four years according to the course of study to be pursued; free second class passages from Bombay to London and back are provided The scholarships were originally confined to graduates of Indian universities under the age of 22 years, but it has been subsequently decided to consider also applications from non-graduates who are successful in examinations not conducted by a university, and to refrain from laying down any hard and fast rules specifying an age limit. These scholarships are not ordinarily awarded to students to study subjects in which suitable provision for training is available in India. Furthermore, only those students are considered for these scholarships who are brilliant and whose fathers have rendered exceptional services and have very limited means.

No notice will be taken of the application of any candidate who selects a centre which is not in the above list, and no *candidate will be allowed to name more than one centre.* No candidate will on any account be allowed to change the place of examination entered in his application, *which must invariably be the place where he is employed or ordinarily resides or should it not be a centre the place nearest to it where the examination is held.* A candidate appearing for examination at a centre other than the one mentioned by him in his application must be prepared to have his examination annulled.

4. In addition to the above centres, the Commissioner will be prepared to arrange for the holding of the *Written* examinations in any of the subjects mentioned at any other place if he is satisfied that not fewer than *fifty* candidates are likely to offer themselves for examination, and it is advisable to make such place a centre. Applications for the inclusion of such place or places in the list of centres should be made to the Commissioner through the local educational or other authorities concerned before the 16th August. Ordinarily, however, only one place will be constituted a centre for each district.

5. Candidates whose Examination, either Written or Oral and Practical, cannot be arranged for at any place must, *at their own expense*, proceed to Madras or to the nearest centre where they are held in the subjects in which they appear.

6. The Oral and Practical Examinations in such subjects as require them will be held at those places only where satisfactory arrangements can be made for the conduct of such Examinations.

N.B.—To guard against disappointment in the case of such of the Oral and Practical Examinations as may be held before the Written Examinations candidates are recommended to refer to Part I-B of the *Fort St. George Gazette* from time to time as an intimation will be sent to them

III. SCALE OF FEES, WHEN AND WHERE TO BE REMITTED BY CANDIDATES.

1. The following is the scale of fees to be paid by candidates for admission to the examinations:—

	Lower grade.	Higher grade.
	Rs.	Rs.
For each subject	.. 6	12

N.B.—No candidate will be permitted to come up for examination in more than one grade in the same subject at the same time.

2. Candidates who have passed in the Second Class in any subject and grade may come up to qualify for the First Class in that subject and grade on paying the full examination fee.

3. Where the subject is one in which the examination is divided into stages, for example,—Tailoring—candidates having failed in one or two sections in the subject and grade may come up in that section or sections on paying the full examination fee that is prescribed for that particular grade they wish to apply.

4. The prescribed fee must be paid in every case into a Government Treasury, or, if at Madras, into the Imperial Bank of India, and the receipt given by the Treasury Officer or the Imperial Bank of India attached to the application, which must in every case reach the Commissioner's office on or **before the 31st August.** *On no account will the fees be received in the Commissioner's office whether sent in cash or by Post Office orders. Neither M.O. coupon nor any temporary receipt that may have been granted, can be accepted. It is therefore incumbent upon the candidate to obtain a receipt from the treasury officer to whom the amount was sent and forward the receipt so obtained to this office at once—care being taken to see that this receipt also reaches the office by the date prescribed for the submission of applications. No application will be registered unless it reaches the Commissioner's office by the date prescribed*

5 *The fees paid will, in no case whatsoever, be refunded nor will it be reserved, for a subsequent examination. Neither will any excess fee that may have been inadvertently paid be returned. Candidates are warned to study the Notification carefully and satisfy themselves, before remitting their fees, that they fulfil the prescribed conditions of admission to the examination and that they can, if necessary, proceed, at their own expense, beyond the limits of the examination centre selected by them, for the purpose of undergoing the Written or the Oral and Practical examinations.*

IV. APPLICATION FORMS—PROCURING OF—FILLING IN AND THE SUBMISSION OF APPLICATIONS, "CERTIFIED WORKS," DRAWINGS, PLANS, ETC., on or before the 31st August,

1. Candidates must send in their applications made out clearly in English on printed forms so that they may reach the Commissioner's office on or before the 31st August, after which date no application will be received.

2. Candidates in the mufassal should obtain the required application forms from the treasury of the taluk in which they are residents or of the district to which they belong. Candidates in Mysore and Hyderabad States should obtain the same from the Resident's Treasury; those in Travancore, Cochin and Pudukottah States from the Agent's Treasury, Trivandrum; and those in Coorg from the Treasury Officer, Coorg, Mercara. Candidates who are residents of Madras should apply for application forms at the office of the Commissioner for Government Examinations, Cathedral Post Office (Madras), and not to the Collector of Madras.

N.B.—No notice will be taken of any applications from candidates in the mufassal requesting to be supplied with application forms from this office.

3. Only one application form should be used by each candidate, although he may bring up several subjects and come up for different grades.

4. Candidates should write their names, their father's names and their house names *distinctly* and *in full* in their applications; if 'Other Hindus' they should state in column 3 of their applications whether they are 'Non-Brahman Caste Hindu,' 'Adi-Dravidas or 'Adi-Andhras'.

5. Only one centre ought to be selected by each candidate, although he may offer several subjects for examination and come up for different grades. The centre selected must invariably be the place where he is employed or ordinarily resides.

All pupils coming up from the same institution must select the same centre, and the applications of all of them should be forwarded together (along with a covering letter stating the number of applications) by the head of that institution, no application of any *private* candidates being enclosed with these applications

NOTE.—Candidates should particularly satisfy themselves by a reference to the foot-notes printed in this notice under the heading II—Centres of Examinations as to whether the examination in the particular subject and grade they wish to apply will be held at the centre selected by them.

6. Every application should contain satisfactory proof of the applicant's general educational attainments by reason of which he is eligible to appear for the examinations in the subjects and for the grades in them brought up by him.

NOTE.—(1) (*a*) In the case of those candidates who have completed the Secondary School-Leaving Certificates, full particulars with regard to the name of school, the year when and the certificate number of the certificate.

(*b*) In the case of those who have passed the Matriculation or S.S.L.C. or Intermediate in Arts, or B.A. Degree Examinations, full particulars with regard to the date and page of the *Fort St. George Gazette* announcing their success in the examinations as the case may be, should be correctly furnished in the columns provided for the purpose in the prescribed application form for admission to the Government Technical Examinations;

(*c*) In the case of those who do not come under any one of these should take care to see that the certificate either A or B on the back of the application form as submitted with the college duly made out and certified accordingly by the authorities concerned; and

(*d*) In the case of those who come under the category at (*c*) supra and whose general educational qualification is lower than that prescribed under Article 6 of the Notification regulating the Government Technical Examinations, should submit also a certificate from a competent person, that is, from one who has passed the Advanced or the Higher grade examination on the subject for which the candidates are applying.

(2) Candidates who do not possess the required general educational qualifications but were appointed and failed in a particular subject and grade, or were once permitted by the Commissioner to come up for a particular subject and for a particular grade will be admitted, provided that they are appearing in the same subject and for the same grade and that in the former case they quote in the new applications for admission to the examinations, the year when they failed and the centre at which they appeared and in the latter case, the number and order of the Commissioner granting them the permission.

7. The subject, the applicant desires to be examined in, should be specified exactly as it is described in the Notification regulating the Government Technical Examinations or as they are described here in this notice under the heading "I. Subjects of Examinations."

8. *The occupation or profession of candidates, or the appointments held by them and their addresses should accurately be stated in full in column 10 of their applications.*

NOTE.—Candidates should particularly see that they do not fail to sign and date their applications at the columns provided for the purpose.

9. Heads of institutions are requested to see, before the certificate at the foot of the application form is signed by them, that their institution has been recognized by the Director of Public Instruction, Madras, or by the Director of Industries, Madras, as fitted to impart instruction in the *Technical* subjects and for the grades in them brought up by their *pupils* and that they quote in the applications the number and date of the proceedings of the authority that accorded such recognition.

N.B.—Heads of institutions recognized for *General Education only* should not sign the certificate at the foot of the application form filled in by any of their pupils coming up for any of the Technical Examinations.

NOTE.—(1) Candidates are particularly requested to note carefully the footnotes printed under the headings (I. Subjects of Examinations and II Centres of Examinations), when they fill in the application forms and such particulars as are necessary, must invariably be noted by them in their applications in unequivocal terms.

(2) Applications defective in any particular will be returned.

10. Each candidate must, wherever the syllabus requires it, submit, before the 31st August, the necessary drawings, plans, surveys, field books, estimates, or other "certified works." Each of the drawings, etc., submitted must have entered on it the name of the candidate, the subject and grade of examination for which he appears and the centre at which he appears, and must be certified to be his own unaided work by the head of the institution or office to which he belongs, by an officer of the Public Works Department not below the rank of Supervisor, by a District Board Engineer, by the Engineer of the Corporation of Madras, or by an Engineer of any Railway Company.

Candidates are especially warned that *no* certified works will be valued by the examiners unless the certificate of authorship is in each case quite satisfactory and specifies clearly the period of time occupied in the execution of each work and unless the examiners are satisfied as to the identity and qualifications of the persons granting the certificate. Further, if any suspicion attaches to any certified works submitted by pupils from technical schools, the Commissioner will be compelled to recommend to the Director of Public Instruction or to the Director of Industries the withdrawal of the departmental privileges enjoyed by the schools. Private candidates, whose certified works are in any way suspected by the examiners, will be liable to have their examination invalidated and also to be debarred from appearing for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit.

It must be particularly noted that the drawings, etc., of each candidate should be submitted in a separate roll for each subject and for each grade (*i.e.*, the drawings, etc., for a number of subjects should not be rolled up together), and that the drawings, etc., of a number of candidates should not be sent in one and the same roll. *Also on the outside of each roll for each subject each candidate should enter the following particulars in ink*:—

(1) Name of candidate,
(2) Place of examination,
(3) Subject,
(4) Grade, and
(5) Total number of drawings in each roll.

As the application has to be kept in the office and as the drawings, etc., have to be forwarded to the examiner, *the application itself should be sent in a separate cover and not rolled up with the drawings, etc.*

A candidate who failed, or having applied, did not appear, at a previous examination, must submit fresh drawings, etc. The drawings, certified works, etc., submitted will, as no account be returned as they are treated as part of their answer papers.

11. In submitting an application for admission to any examination the candidate will be deemed to have given an undertaking that he will abide by all the rules now in force or those to be brought into effect hereafter in respect of that examination, including the following:—No revaluation of answer papers is permissible.

Candidates are warned that the application *itself should not be enclosed* with any drawings, plans, surveys, field books, estimates, or other 'certified works' that may be sent, but should be submitted in a *separate* cover.

12. Each application should be sent direct to the undersigned, post paid, super-scribed and addressed as follows, *the receipt for the fee paid being secured, fastened to it*:—

[Application for admission to the Government Technical Examinations].

To

The Secretary to the Commissioner for Government Examinations,
Cathedral Post Office (Madras).

N.B.—Candidates anxious to assure themselves that their applications have been received should enclose an *addressed postcard in their respective applications*. The postcards should bear the sender's address only and no other writing. Such postcards will be returned to them in due course with the 'Received' stamp of the office impressed upon them. No other form of acknowledgment except

that required by the Postal rules regarding registered covers can possibly be given nor will any notice be taken of any letter from any candidate enquiring whether his application has been received. Insufficiently stamped covers will be rejected.

The Chief Engineer further suggests that, as no provision has been made in the budget estimates, for the current year, of the Renewals and Replacement Fund for the expenditure in question, funds be provided by appropriating for the purpose the necessary amount from the sums provided under the Fund of Rs. 14,500 for the work of "Asphalting the roof of warehouse 'Y'", which he considers may be postponed to the next year, and of Rs. 5,000 for the work of "Renewing the Cast Iron Water Tank at water column at No. I section", as it is not considered necessary to maintain the tank owing to the water column having been connected to the water main from the High Level Tank at No. I section.
